

➤IMPACT | 2030

IMPACT 2030 is a global, private sector led initiative, developed to align companies and their employee volunteer actions with the Sustainable Development Goals to create real and sustainable change.

To align corporate volunteering globally to further the achievement of the Sustainable Development Goals

- Align company-level volunteering strategies directly to the Sustainable Development Goals;
 - Promote awareness of the Sustainable Development Goals to employees and showcase how their volunteer actions will advance the achievement of these Global Goals;
- 
- Create and facilitate avenues for cross-sector and cross-industry collaboration between companies and stakeholders to initiate joint commitments and actions;
 - Work with existing resources to develop methodologies and frameworks through which to measure the impact of volunteer commitments of our member companies and the collective results of the IMPACT 2030 Network on the UN Development Agenda;
- Create and maintain global representation of IMPACT 2030 through the multi-sector Regional Voice Network providing a platform to focus efforts on a country and region-wide basis.
